Department of Construction Science  
College of Architecture, Construction, and Planning  
The University of Texas at San Antonio

The Department of Construction Science at the University of Texas at San Antonio invites qualified individuals to apply for a full-time, nine-month, tenure-track and/or tenure faculty position at the rank of Assistant or Associate Professor, beginning in August 2018.

The Department offers a 120-credit-hour B.S. degree in Construction Science and Management accredited by the American Council for Construction Education (ACCE). The Department has over 200 undergraduate students, 7 full-time faculty members and significant industry support and involvement. The Department is part of the College of Architecture, Construction, and Planning located in downtown San Antonio, one of America’s oldest and most vibrant urban environments, where design, construction, and research find unique topics of inquiry. By focusing on academic excellence, faculty and student led research and extending international reach, UTSA is making its way toward Tier One status.

Responsibilities for the position include developing and teaching courses at the undergraduate and graduate levels, conducting scholarly research, pursuing external research funding and making service contributions within the University, the construction industry and the profession. Candidates should have a clear research agenda/strategy and be prepared to pursue external funded research grants, to develop professional opportunities for students, and to participate in the continuous development of the Department, College and University. It is critical that candidates be interested in, and be adept at, collaborating with faculty from other disciplines within the College and University.

Required Qualifications:
• A PhD. in Construction or related discipline. If ABD, the successful candidate must complete all requirements for their degree upon hire.
• Ability to teach two or more courses in the Construction Science and Management program
• A proven record of recent peer-reviewed publications

Preferred Qualifications:
• Ability to teach “Construction Materials and Testing” and/or “Preconstruction”.
• Recent proven capability to obtain externally funded research.
• Industry experience.

For the complete position announcement and to apply for the position, please use UTSA’s online application process (https://jobs.utsa.edu/postings/7335)

Upon accessing the UTSA Human Resources website at https://jobs.utsa.edu . You will be required to submit the following:
• Letter of interest/narrative statement describing in one to three pages your qualifications for the position, areas of expertise, pedagogical approach, and plan/strategies for future research (including funding sources/programs).
• A Curriculum Vitae.
• A list of at least three references with contact information.
• If ABD, evidence of graduate hours completed and status of progress towards completion.

This is a security sensitive position. Employment is contingent upon a successful background check. The review of completed applications will begin on November 6, 2017 and continue until the position is filled. Applicants who are selected for on-campus interviews must be able to show proof that they will be eligible and qualified to work in the United States by time of hire. Tenure is contingent upon Board of Regents approval for associate professor rank. The University of Texas at San Antonio is an Affirmative Action/Equal Opportunity Employer. Women, minorities, veterans, and individuals with disabilities are encouraged to apply.

For additional information, contact the Search Committee Chair, Dr. Rogelio Palomera-Arias at rogelio.palomera-arias@utsa.edu, or the Department Chair, Dr. Tulio Sulbaran at tulio.sulbaran@utsa.edu.
